Copy of Previously Filed Information Disclosure Statement Papers**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In reply to the "Reasons for Allowance" attached to the Notice of Allowability mailed **October 12, 2005**, Applicants submit the following comments.

On page 3 of the Notice of Allowability, under "Reasons for Allowance," it is noted that the application file contains several references for which no corresponding PTO-1449 or IDS exists in the file. The Examiner indicated that all of the references in the IFW have been considered. The Examiner, however, recommended that the papers associated with the references, if they are "not of record due to separation from the application file in its transition from a paper file to an IFW file," be forwarded to the Office with evidence of their original filing so that they may be made of record in the application.

Applicants note that an Information Disclosure Statement, along with a Form PTO-1449 and copies of 40 cited documents, was filed on March 12, 2002. An initialed copy of the Form PTO-1449 was never provided to Applicants. It is believed that the 40 documents included with the March 12, 2002 IDS filing are the same documents referred to in the Notice of Allowability. Accordingly, Applicants submit herewith a photocopy of the IDS pleading, the Form PTO-1449 (9 sheets), the cover letter that accompanied the filing, and a date-stamped postcard acknowledging receipt of the IDS and the accompanying documents by the USPTO on March 12, 2002.

Applicants respectfully request that the Examiner indicate in the official file wrapper that the documents included in the March 12, 2002 IDS have been considered.

Respectfully submitted,

Information Disclosure Statement

Commissioner for Patents
Washington, D.C. 20231

Sir:

Listed on accompanying Form PTO-1449 are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98. A copy of each document is provided.

In accordance with 37 C.F.R. § 1.98(a)(3), Applicants' undersigned representative submits the following, in regards to non-English language document AL1 cited on Form PTO 1449:

Document AL1, European Patent No. EP 0 263 740, is in the French language. An English language abstract of document AL1 is attached as document AT7.

The Examiner's attention is directed to the following co-pending U.S. Patent Applications which are directed to related technical subject matter: U.S. Patent Application No. 09/380,203, filed April 25, 2000; U.S. Patent Application No. 09/964,678, filed September 28, 2001; U.S. Patent Application No. 09/964,412, filed September 28, 2001;

and U.S. Patent Application No. 09/964,667, filed September 28, 2001. The specifications of these applications are identical to one another, and are therefore "substantially cumulative." Accordingly, pursuant to 37 CFR § 1.98(c), a single copy of this specification is submitted herewith as document AS8. The claims currently pending from US patent application Nos. 09/380,203, 09/964,678, 09/964,412, and 09/964,667 are additionally submitted herewith as documents AT8, AR9, AS9 and AT9, respectively.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicants have listed publication dates on the attached PTO-1449 based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

This Information Disclosure Statement is being filed before the mailing date of a first Office Action on the merits. No statement or fee is required.
